A WOEFUL TALE

Comes From the Stricken Regions of Europe Where the Plague Causes Devastation and Death.

Pitiable and Heart Rending Scenes Witnessed in the Cities Where Panic and Distress Reigns.

The People Fleeing for Their Lives From an Unconquerable foe Which Shows no Mercy.

The Cholera.
PARIS, July 25.—There were fifteen deaths in Toulon last night—five in the hospital, three in town and seven in the suburbs. It is feared that the stormy weather will increase the violence of the epidemic. Six hundred people have left Toulon for the Pyrenees in the past two days. The deaths at Marseilles last night number sixteen.

PITIALE SCENES.

PARIS, July 25.—Isolated cases of cholera continue to be reported in various parts of France, some widely different from the infected districts. A woman living at Courcoire, only a few miles from Paris, was seized with sporadic cholera on Thursday. She was conveyed to the hospital and the lodgings were thoroughly disinfected. No further cases are believed to be in the community. Two cases of cholera occurred at Narbonne and at St. Nazaire, a village not far from Toulon, two deaths occurred. One was of especially pathetic character. An unknown woman was seized while passing along the street, fell prostrate and expired immediately. A pitiable case is reported from Marseilles. A woman seventy years old was missing for several days. The police at last found her body upon the floor in such condition that proved that she must have been dead several days. An examination proved her to be a victim of cholera. She had lived almost exclusively on fruit.

The corvette, Argentine, recently at Marseilles, desired to take on coal at Gibraltar but the English authorities forbade them and threatened to fire unless the vessel departed. The Argentine thereupon proceeded to a port in Portugal and began coaling but the inhabitants became panic stricken and compelled the captain to order an immediate departure of the unfortunate vessel. Where the Argentine is to find fuel enough to enable her to return to Laplata appears to be an insolvable.

THE SITUATION IN PARIS.

The Paris correspondent of the Standard says, the large number of those who have recovered from the cholera shows that the disease is not of the same deadly character which some of the previous outbreaks displayed. There is a considerable exodus from Paris who are apprehensive that the epidemic will reach the capital, but nothing of the nature of a panic has yet appeared. The correspondent has never seen Paris so deserted as at the present. The English and American tourists give Paris a wide berth. Such a scare, he contends, is unjustified, as the capital is better cleaned, more abundantly watered and healthier than any other city in Europe.

THE OTHER SIDE OF THE PICTURE.

PARIS, July 25.—The condition of affairs at Arles is despicable. The water supply is shut off, owing to an accident in the hydraulic apparatus. Many funerals of cholera victims have been conducted by men who are generally drunk. These funerals have been greatly retarded by the fact that carpenters refuse to make coffins for those who die of cholera, nearly all the bakers and butchers have left the city, and goods are consequently scarce and difficult to obtain. The panic throughout the city is simply indescribable. The epidemic appears to be extending. One death has occurred at St. Marice de Lamar. The inhabitants of that town want to expel all refugees from Arles. In six different villages of the department of Bouches du Rhone from one to two deaths have occurred. In Vintimiglia, Italy, there has been ten deaths.

FOOLISH YOUTHS.

PARIS, July 25.—At Toulon two foolish youths made a bet as to which could drink the most seltzer water. One drank nine siphons and the other eight. Both died shortly after with cholera. In a debate in the deputies yesterday in regard to the French law relating to epidemics, M. Bert described France as

after Spain and Turkey, the most backward country in Europe in sanitary matters.

FLEEING FROM THE PEST.

PARIS, July 25.—A steamer with the cholera arrived off Huelva, Spain. The inhabitants are panic stricken and have fled into Portugal.

IMPROVING.

PARIS, July 25.—Reports from Marseilles and Toulon up to 5:30 this afternoon show the condition of affairs to be steadily improving. The councils of Arles who fled at the approach of the cholera will be prosecuted.

St. John Will Discharge His Duty.

PITTSBURGH, July 24.—J. S. Little, of Newark, N. J., received the following telegram this morning from Ex-Governor St. John:

ROCHESTER, N. Y., July 25.

TO HON. JOHN R. FINE, OR M. B. B. BENNETT:—I was at Lakeside yesterday and did not receive your telegram till this morning. While I did not seek or desire the nomination, I greatly appreciate the unanimity with which it was given, as well as the honor it conferred. I can only say now that I acquiesce in the action of the convention and am looking to God for his guidance. I shall try to do my duty.

[Signed] JOHN R. ST. JOHN.

GOING HOME.

The delegates are leaving for home on every train and will by to-morrow leave the city deserted. Last night R. H. McDaniel gave a banquet to the ladies of the convention. In interviews to-day it is claimed that they will poll from 500,000 to 1,000,000 votes and that they will probably carry Kansas and Maryland, and so throw the election in congress.

CONGRATULATIONS FROM HOME.

LEAVENWORTH, Kan., July 25.—The following telegram was sent to governor St. John to-day and may be of interest coming from the leading temperance organization in his own state:

LEAVENWORTH, Kan., July 25, 1884.

The Women's Christian Temperance union of Kansas congratulates Governor St. John upon his nomination for president of the United States. May God bless and lead to victory the man who has stood by the home.

[Signed] LAURA R. FRIEDL.

There are no particulars of the affair, which occurred in the country. Calvert was an old and highly respected citizen. Farrell is a horse trader and sporting man.

The Old Firm Again in Court.

NEW YORK, July 25.—A motion was argued to-day in the supreme court to vacate the attachment levied upon the property of Ferdinand Ward, in the suit by the Marine National bank to recover \$700,000 loaned by the bank to Grant & Ward, prior to their assignment. The court reserved its decision.

Henderson, into the cylinder and crushing him to death, killing the engineer, Eugene Swain, a new man with the engine, and a man named Robert Innis, besides wounding five others probably fatally. The owner claimed the cause to be gas generated from the use of sulphur water, but the brother of the engineer examined the engine some days since and pronounced it unsafe.

CLIMBED HIS COLLAR.

Mrs. Charles Benoy Feels the Side of John Lehr's Face and Kicks Him From Her House—The Trouble of a Tax Collector.

On the books of the city treasurer are \$25,000 delinquent taxes and Mr. Benoy tells us that \$20,000 of the amount is due from people well able to pay. Yesterday John G. Lehr, the city collector, started out armed with tax warrants. He proceeded to the residence of Mr. Charles W. Benoy, at 87 Force street, but Mrs. Benoy spied him and slammed the door in his face. John forced an entrance elsewhere and at once Mrs. Benoy was on his head. She scratched his face, bit his hands and sent at his bushy hair like a tigeress. She was too much for Mr. Lehr, who got out of the house as fast as he could and with as much of himself as he could hold together. Mr. Lehr says that the woman not only refused to pay her taxes, but encouraged her neighbors to do likewise. This Mr. Lehr proposes to stop if it suits him a leg. In Zollinger's court an affidavit was filed against Mrs. Benoy for resisting an officer, and she was fined. The woman's husband is a machinist in the Benoy foundry and is comfortably fixed. Mr. Lehr will move slow on Force street.

A THIEF CAUGHT.

A Connecticut Man Run in for Breaking Into Dr. Leathman's Office—He Goes to Jail in Default of \$500.

At noon a suspicious looking individual was noticed prowling about the alley near Trunkley's jewelry store. When the streets were pretty well deserted he ascended the side stairway leading above Pyke's grocery and tried to force an entrance into the offices there. In one instance he was successful. He forced the door of Dr. Joseph H. Leathman's office in and stole a \$20 revolver and two silk umbrellas. He was gliding away with the goods when Dr. Leathman nabbed him and turned him over to the officers. Justice Ryan heard the case and bound him over in the sum of \$500 to await indictment and a trip to the pen. The fellow gave his name as James A

JOHN B. GOUGH is seriously ill.

THIS seems to be a bad year for base ball teams.

A GERMAN democratic campaign club, large in numbers, was organized at South Bend Tuesday evening.

It is an open question which Mr. Blaine loves best, the sound of a church bell or the whistle of a locomotive.

It is a high compliment to the French that not a woman of that nationality is to be found among the wives of Utah.

SANOUSUS LAM, 108 years old, lying at the point of death at Southampton, L. I., is the last full-blooded squaw of the Shinnecock Indians.

The national democratic committee have organized and will soon be prepared to prosecute a vigorous campaign. There is plenty of material to work upon and it will be used.

PERHAPS the most important feature of the independent movement is the strength exhibited by its promoters in what are regarded as the decisive voting centers of the Union.—Brooklyn Eagle.

ALL will rejoice that it has been proven that yellow fever has not made its appearance in New Orleans and it is devoutly to be hoped that the south may escape a visitation from this scourge one year at least.

ERNEST EADE, who died at Athens, N. Y., recently, at the age of sixty-five years, was born without ears and had no apertures where his ears should have been. He was able, however, to gather sound through his mouth.

NEARLY all the members of the cabinet are away visiting, fishing or at the sea shore, except Mr. Chandler. Some way or other we have not been able to get any reliable information from the secretary since Governor Hendricks wrote him.

BLAINE is the Gordon of America. Placed in an attitude where action is necessary he finds himself supported by only the weaker elements of his party while the government refuses to interfere and the great leaders are indifferent to his success.

MARTHA ZARANTZ, of Gethsemane, reached Castle Garden with her family Saturday. Martha is 112 years old, and her children, who accompanied her, are from eighty-eight years down. They go to Montana, where the family, seventeen in all, will found a colony.

THE greenback state central committee have named Hon. E. L. Weeks, of Adams county, as their candidate for supreme court reporter. A Mr. Fisher, of this county, is one of the members of the state central committee. The vacancy for supreme court judge will be filled in a few days.

WHATEVER may be said regarding the numerous plots discovered in Europe and which have proved to be myths, it seems certain that a plot, well conceived and cunning, existed to assassinate the czar and destroy the palace. Europe is virtually at the mercy of the dynamites and some day we shall hear of the successful execution of their plans.

A GRAPE-VINE telegraph sheet which publishes a mass of jargon, such as "A Visit to Kendallville," is certainly well qualified to pass judgment upon the grammatical expressions of any one else.

CLEVELAND is conspicuously strong in drawing votes from men who have usually sided with the republicans. Recent years have educated New York state up to an extent of independent voting which the rest of the country fails as yet to appreciate. Let the inquirer after political light go among the active business and professional men of that city and he will discover a support for Cleveland that is vastly significant.—Springfield Republican (rep.) July 16.

THE republican journals which are asserting that the independents are weak in numbers are building hopes upon a shallow foundation. A little calm reflection will prove conclusively that the independent movement includes some of the very men upon which the republican party has at all times and under all circumstances depended for valuable assistance. The sneers and unfriendly comments which they are now heaping upon them will only add to their numbers and to their strength.

THE president of the society known as the Federation of Labor of the District of Columbia, which recently adopted resolutions denouncing Governor Cleveland's attitude towards the workmen and which have been largely quoted by the republican press, is a republican and a clerk in the census bureau, his backer, it is understood, being Senator Don Cameron. The secretary is an employee of the government printing office and so on with numerous others of the club. And this is a sample of the workmen's opposition to Cleveland.

THE Buffalo Times, a paper printed at Mr. Cleveland's home, opposed to his nomination and now vigorously opposing his election, in a discussion of the candidates which have been printed against him, says, among other things: "It may be claimed with justice that a man who is fit, personally, to preside as mayor of Buffalo and again to occupy the great office of governor of the Empire state is not disqualified on the same grounds, to sit as chief executive of the nation. In other words, if Mr. Cleveland was a good enough man morally to receive the support of his fellow-citizens to set as their mayor, he is good enough morally to be their president."

THE prohibitionists of the country in convention yesterday at Pittsburg, nominated a ticket which is headed by Gov. St. John, of Kansas, and William Daniel, of Maryland. This action places a ticket in the field which will undoubtedly receive a large vote, especially in prohibition states. The desperate efforts made by republicans to induce these people not to nominate a ticket but to endorse the republican nominees show that the result is feared by them. The attitude of the republican party towards the prohibitionists and temperance people of the country is not well adapted to encourage them to hold allegiance to a party which has betrayed its promises, and those who believe in the principles advocated by the prohibition party cannot vote for the republican nominees.

ACCORDING to the program agreed upon by the secretary of the war and sailing secretary of the navy the vessels of the Greely relief expedition with the survivors and dead of the Greely party will sail from St. Johns on the 26th or 28th instant and proceed direct to Portsmouth where they will be officially received by the secretary of the navy, the officers of the North Atlantic squadron, now at that point, and the state and local authorities. Lieutenant Greely and other survivors will disembark at Portsmouth and the vessels will proceed to New York with the bodies of the dead which will be landed at Governor's Island and placed in charge of the mayor. General Hancock later will transfer them to the cars of relatives and friends upon application. The vessels are expected to arrive at New York about the 1st of August. Should any bodies be unclaimed, which will probably prove to be the case with some foreign-born, they will be buried with appropriate ceremonies at the National Cemetery, New York. The officers of the relief expedition will probably report in Washington early next month.

THERE was a double-headed temperance convention at Indianapolis yesterday and the only difference between them was that one was run in the interests of republicans and the other was not. The one, the straight-out prohibitionists nominated the following ticket: For governor, R. S. Dwiggins, Jasper county; lieutenant governor, E. C. Silver, Hendricks; secretary of state, B. F. Carter, Marion; auditor, Eli Miller, St. Joseph; treasurer, A. J. Taylor, Allen; judge of supreme court, E. P. Hammond, Jasper; superintendent of public instruction, Ryland Brown, Marion. The state central committee was instructed to name the candidates for attorney general and presidential electors. The other convention after frequent protestations of their temperance principles, declared they would vote for no man except those who favored a constitutional convention, thus virtually endorsing the republican party.

When temperance people recede from the advanced steps which they have taken, there is furnished abundant food for reflection.

FOR PARTY'S SAKE.

DURING every political campaign the people hear more or less of their duty to their party, and while there exists a duty there is a defining and distinct line between that duty and that which every good citizen owes to himself and his country.

At this time republicans, those who hesitate to endorse Blaine, are called upon to support him for the sake of the party and because of the duty which they owe to that party. The question of personal fitness is not considered and is not argued, but the plain and simple duty is pointed out that the success of their cause requires and demands their support. This involves several questions which men of prudence and of judgment would do well to consider.

In the first place it is an axiom which has never been disputed and which admits of no argument, that a party may outlive its usefulness. It has been true in every age of the world and is true in the present. A long lease of power leads to corruption in the management of important trusts and in the control of a nation. A series of victories lead to evil practices at first secretly and cautiously contrived, but in the practice of which more boldness is shown from year to year as illegotten gains increase in magnitude and the fear of discovery and the dread of punishment becomes less certain. Good citizens, casting aside all party allegiance, desire an honest government, an administration untainted with these corrupt and thieving practices which now, as is well known and has been proven from time to time, exists. Nearly every day we hear of some public officer in whose accounts a shortness has been discovered. The memory of gigantic "steals" is still fresh in the minds of every one and need not be rehearsed, having been proven to the satisfaction of all. Then we say honest men, those who have the welfare of their country at heart, desire that a change should be made and that some power might be introduced which should clear the public treasury of these political blood-suckers who now squander its wealth.

But there is another shade to this question to which attention is called and that is the result of the election of any man to the presidency, in other words, his personal fitness.

To those who desire, sincerely and truly, an honest man's election to the highest office in the gift of the people, the question of his personal qualifications is an important one. Not only does it apply to the man himself, but it attaches with equal force to the class with which he is associated, his counselors, his friends and his past political record. Only from this standard of reasoning can the result be reached. If a man has proven his ability and has shown fearlessness in the discharge of his duties, he is certainly to be commended. If he has been careful, prudent and zealous in the administration of duties imposed upon him, this will do much to fit him for higher positions of responsibility and trust. But, on the other hand, if he has been careless, imprudent and reckless; if his public career has been tainted with political jobbery; if he has abused the influence of his position for the sake of acquiring wealth, or if he has shown a determination to pursue a policy which is not for the best interests of the country, then the people would certainly be hazardous in their best interests to place him in a position where he would have full and complete control of the destiny and prosperity of more than fifty million people. Party love is strong but love for country should be stronger, and its advancement and its best interests should be far above all other things.

To thoughtful men the two phases are here presented. What is your duty and will you allow your zeal for party success overcome the convictions of what you know to be right?

HE WOULDN'T SELL OUT.

From the Indianapolis News.
A News reporter this afternoon went to M. E. Shiel, editor of the Monitor-Journal, with a rumor gathered from the street that the republicans were tempting him with a golden bait away from his advocacy of a third state ticket on a prohibition platform. Mr. Shiel, when cornered admitted that he had been laboring with him to that end. He said he had not intended to disclose the matter, but since they were boasting of what they could accomplish, "I made no pretensions," said he, "but propositions were made to me. 'But who they' were were not explained' first offered me \$1,000, then increased to \$2,500, and finally told me to write out a proposition at \$3,000 to be submitted to the committee. I told them I had no proposition to make. I have been with the temperance people eight years and would rather go to jail than to become a Jude in their camp. I never went back to the rendezvous at the office of a prominent lawyer."

As Every Day Occurrence.
Everybody in Plymouth, says the Democrat of that place, knows Lot Dickson, the popular passenger conductor on the Pittsburg, Fort Wayne and Chicago railroad. Well, his experience with passengers would make a volume as large as Jim Blaine's letter of acceptance. The other night, Dan O'Leary, who is almost a complete wreck, boarded Dickson's train out of Chicago in a very befuddled condition. The first time Mr. Dickson came around Dan fumbled all through his pockets, but couldn't find his ticket. Dickson, knowing him, passed him by and went through the balance of the train. After he had taken up all the tickets he returned to O'Leary to see whether he had found his ticket but the lacy pedestrian was fast asleep. When the conductor awoke him he could tell what had become of his ticket, and had forgotten where he wanted to go. "I guess you'd better go back to Chicago," said Mr. Dickson, and collected his fare as far as Tolleston. When that point was reached O'Leary was assisted from the train and left alone in his glory at the lovely station.

weather bureau at Washington are as
follows: Local showers and partly cloudy
weather; variable winds, generally from
north to east; stationary temperature.

A German resident of Madison street,
last night went home drunk and drove
his wife and children from home. The
fellow was not arrested and his name
could not be learned. His neighbors
wanted to introduce the whipping post
for his special benefit.

Congressman Lowry writes the pro-
motors of the veteran re-union that
no tents can be given by the government
to encampments under the existing laws.
All the available canvas was donated to
the late flood sufferers. The tents will
be rented from the state militia for \$1
apiece. The encampment will probably
be in White's addition.

The warm weather often has a depress-
ing and debilitating effect. Hood's Sarsa-
parilla overcomes all languor and hesi-
tation.

Death of Robert Matson.
Communicated.
Another shaft from the arrow of death
has fallen in our midst, and this time
has chosen little Robert, the pet of the
household and infant son of Harry W. and
Addie E. Matson, of Toledo, and grand-
son of D. F. and Sarah Comparat, of this
city. On Friday last he was taken with
cholera infantum, and his suffering was
intense all through his sickness, until
Thursday morning at 3 o'clock the Good
Shepherd, released him from his little lamb,
released him from his suffering and took
him home. For eleven months little
Robert has brightened the hearts and
home of his parents, and as the tiny
dew-drop only lingers a short time to
refreshen and beautify the flower, so
their darling, having fulfilled his mis-
sion on earth, has gone to his home be-
yond the clouds, as a stray gleam of
sunshine that fits across our pathway
for a moment and is gone.
"Be still, and heart, cease thy weeping.
Behold the clouds the sun is still shining:
Thy fate is the common fate of all.
Into every life some rain must fall."

Letter from J. Malcolm Smith, Clerk
of Westchester County, New York,
for Nine Years.
WHITE PLAINS, N. Y., May 7, 1893.
I have for many years been troubled
at times with muscular rheumatism and
pleuritic pains, and have always found
Alcock's Porous Plaster to be quick and
efficient in affording relief.
In December last I had an attack of
Pneumonia which left one of my lungs
in a weak and extremely sensitive con-
dition, accompanied at times with severe
pain. The application of one plaster re-
lieved the pain in a short time and I
have worn one almost constantly ever
since as a protection to the weakened
lung.
I have used Alcock's Porous Plasters
for myself and family for over twenty-
five years, always with speedy beneficial
results, and I do not hesitate to recom-
mend them for their mild counter-irritant
qualities, and for their efficiency in re-
lieving soreness of the lungs and pains
of a rheumatic or neuralgic character.
J. MALCOLM SMITH.
Be sure to obtain "Alcock's" Porous
Plaster, as all others are worthless im-
itations.
The amount to the credit of the Ar-
kansas school system is \$300,798.

ADVICE TO MOTHERS.—Mrs. Winslow's
Soothing Syrup should always be used
when children are outling teeth. It re-
lieves the little sufferers at once; it pro-
duces natural, quiet sleep by relieving
the child from pain, and the little cherub
awakes as "bright as a button." It is
very pleasant to taste. It soothes the
child, softens the gums, allays all pain
relieves wind, regulates the bowels, and
is the best known remedy for diarrhoea,
whether arising from teething or other
causes. Twenty-five cents a bottle.

NOTICE—TAPPING PUBLIC SEWERS.
Attention is hereby called to the ordinance
of the City Council of Fort Wayne in the
matter of tapping the sewers with private drains.
Section 3, of Chapter 45, is as follows: "The
fore any connection can be made with any
public sewer, a permit must be obtained from
the City Engineer."
Section 4: "All applications for permits to
connect with sewers must be made in writing
by the owners of the property to be drained,
or by their authorized agent, and must be ac-
companied by a clear description of the prop-
erty and of the drains required, together with
the water closets, sinks and other fixtures to
be connected with the same, and that said de-
scription may be filed in the office of the City
Engineer."
Section 5: "At least forty-eight hours must
be given to the City Engineer's office before
any street or public way can be opened for
the purpose of laying a private drain."
For the successful execution of these ordinances
a penalty of from five to fifty dollars is at-
tached, and by a resolution of the Council, at
its last session, the City Engineer is reminded
of and required to see that they are obeyed.
